To present & discuss

## Natural Resources Conservation Service's Emergency Watershed Protection Program for 416 Fire-related flooding

The NRCS Emergency Watershed Protection Program team has completed damage survey reports that outline mitigation and recovery projects for 113 properties that lie in the debris flow area below the 416 Fire burn scar. Yours is one of these properties. NRCS will provide 75% of the funding to complete these projects; property owners interested in the program would be responsible for the remaining 25%.

**Come learn about the Emergency Watershed Protection Program and other flood information and recovery resources**

**When: 5:30-7 p.m., Thursday, August 30**

**Where: La Plata County Fairgrounds, Exhibit Hall  
2500 Main Ave., Durango**

**For more information, contact Megan Graham, Public Affairs Officer  
[megan.graham@co.laplata.co.us](mailto:megan.graham@co.laplata.co.us) or (970)382-6265**
